

VECTRA VXR WATER RADIATOR FITTING IMAGES.

Turbo Water Cooling Into Radiator From Turbo
(Right Hand Side Viewed From Driver's Seat)

Turbo Water Cooling - Water Out To Header Tank
(Left Hand Side Viewed From Driver's Seat)

Vectra VXR Water Radiator Turbo Water Outlet Cooling Bypass.

New route to radiator right side top spigot for turbo water outlet

New water return hose into header tank from radiator left side top spigot

The factory pipe (red line) is discarded and the water is piped from the turbo outlet to the driver's side (RHD)/right side radiator top spigot and returned to the header tank from the left/passenger side radiator top spigot.
